Thanks to Tom, Ravi and Sury for drafting some points for the issues identified by ACC for their meeting with Ken. I consolidated and then edited them and here they are attached for your review, comments and edits. We will provide them to Bob and David before the end of the week so they can decide how much information is enough as background.

Regards, Barbara

Here is my blurb for bullet 3 on the adduct calculations. Focussed on keeping it short for Olden. Dont know if this is enough.

Hello Team,

I have had two requests from Bob S. that I will need your input on.

1. Do we need contracting dollars? Input needed by COB tomorrow. I am not going to ask for contractor support for detailed animal evidence tables for the appendix. After our discussions and individual discussions, more people felt these are not necessary than did. However, is there anything else?

I will mention to Bob that we will need help interfacing with HERO (adding links in document and perhaps tagging). Plus we will need help with tech editing.

2. Another meeting has been scheduled with the ACC to be held with Ken Olden in North Carolina. If you did not receive an invitation and would like to sit in on this meeting let me know. Attached is the letter from ACC with a list of items they want to discuss. Bob has asked me for a few sentences under each bullet to provide to Ken as background.

This is needed by Dec. 10th. The meeting is Dec. 17th. I am asking the following people to draft a few sentences for specific bullets as a start by COB Friday Nov. 30th..

Tom - bullets 1 and 2

Ravi - bullet 3

Sury - bullet 4

3. do you want to coordinate or discuss anything related to the assessment? Please let me know today and I will not cancel our meeting on Wed.

thank you very much, Barbara
